Please understand that the completion of adoption application is not a guarantee of adoption. We often receive several applications for available pets, we assure you that if the home we choose is a home other than yours, it is not necessarily a reflection on your ability to provide a good home for an animal. As well, due to the high number of applications we receive only the successful applicant will be contacted; however, please feel free to contact us at any time for an update on your adoption application.

Pet Interested In: _____

Is so, up to what extent are you able to afford such care per year? _____
- How much time will you be able to spend with your new pet on a daily basis? _____

Many of the animals admitted to our care arrive with little or no history. Though we strive to provide them with the best care possible, minor ailments and diseases are inevitable when housing a large number of animals that have likely experienced neglect and/or never received veterinary care in their lifetime. We strongly encourage you to take your new family member to a vet of your choice within two weeks of adoption. Thank you for considering giving one of our homeless animals a forever home!
